TC-32: Chat helper

Result: Feature has not been added yet.

TC-33: Customer Service.

Result: Feature has not been added yet.

TC-34: Returning Tickets

Result: Feature has not been added yet.

RECOMMENDATIONS

After having tested all of the cases I arrived to the conclusion that pretty much everything worked, however some feedback I would like to give is that sometimes when a customer is adding something to the cart, I think it would be nice that the costumer gets a notification of that, things like this will make it more user friendly. For the rest, the test plan was clear and it was a really nice project.
